Renewable Energy:

Renewable Energy is energy that can be used over and over again. Renewable energy is made by sources that will always exist in this world long after we're gone.

Forms of Alternative Energy:

- *Wind*
- *hydroelectric*
- *geothermal*
- *Solar Power*
- *Bio mass*
- *Conservation*

What are the two forms of renewable energy in Colorado?

The 2 forms are:

- * Solar Energy*
- * Hydroelectric*
